

2024  
SPRING SUMMER WEAR

# EXPLORE THE ADVENTURE WITHIN

Woodland's parent company, Aero Group, has been a well known name in the outdoor shoe industry since the early 50s. Founded in Quebec, Canada, it entered the Indian market in 1992. The first hand-stitched leather shoe was launched, which took the entire shoe market by storm. Their high-quality and durable products shook-up the outdoor gear and footwear market of the country.

Today, Woodland offers an extensive line of footwear, like boots, sneakers, slippers, flip-flops, sandals and more. Our commitment to conquer the great outdoors is reflected in the ultimate comfort and durability of our products. From rough mountains to majestic riversides, our products are meant to support you in every situation.

In addition to footwear, Woodland also provides a comprehensive selection of performance apparel and outdoor gear, tailored to withstand the demands of an adventure. Whether you are hiking through rugged landscapes or exploring remote trails, our gear is designed to enhance your outdoor experience and keep you prepared for any adventure that comes your way.
